

# LASTING OUTDOOR IMPRESSIONS

*Enhance your home with custom open-air living spaces*

(Top) This Outdoor Impressions residential project, designed for the Pollock family, includes a fireplace with a raised patio, sitting wall and landscape lighting. (Bottom from left to right) Brick paver projects for patios, pools, decks and more; Custom water features, such as koi ponds and waterfalls; Natural stone and interlocking brick pavers are perfect for pool decks.

Ask Jason Smith to describe how his team at Outdoor Impressions builds an outdoor living space and he'll explain the importance of style, design, dimension and the posture of the sun. It becomes instantly apparent that Jason isn't just a landscaper, but the head of a talented full hardscape design company.

From start to finish, Outdoor Impressions' design team ensures every aspect of your project is taken care of so you don't have to deal with several contractors. Jason is supported by handpicked companies that work in conjunction with his crew, allowing them to focus on their specialties: paver driveways and pool decks, water features, outdoor kitchens, hardscape design and lighting.

When he started Outdoor Impressions nearly 10 years ago in high school, Jason was ambitious,

young and hardworking. Fast forward to 2009 and his team is the largest in the Brandon area and a trailblazer in Hillsborough County.

Building an open-air living space with Outdoor Impressions can be one of the most affordable ways to increase the comfort and livable square footage of your home, but finding the right ideas can be daunting. That's why Jason unveiled the new, state-of-the-art design center in March showcasing every aspect of the company's repertoire: grills, patios, tiki huts, walkways and more. Jason says the center gives Tampa Bay residents a first-hand look at the transformations easily done by this talented crew.

"We'll show you ways to expand your outdoor living experience, and we'll do it differently- in style," Jason says.

## AT A GLANCE

- Pavers projects include pool decks, driveways, patios, hardscapes and more
- Outdoor kitchen designs with tiki huts, grills, shade structures, koi ponds
- Five-year warranty on all projects
- Serving the greater Tampa Bay area
